Kasemets to test for Conquest

December 12th 2005, 14:45 GMT

This season's Toyota Atlantic runner-up Tony Kasemets will test with Champ Car team Mi-Jack Conquest racing at Sebring this week with a view to a full time drive next season.

Estonian Kasemets sampled a Champ Car this time last year, when he tested for Dale Coyne Racing.

Kasemets will be joined at the track by fellow Toyota Atlantic frontrunner Katherine Legge, who will test for Rocketsports Racing.

"I'm confident I belong in Champ Car," Kasemets said. "All I need is that one chance to prove to those who've always believed in me, that I can finish up front. The fans support has become totally amazing and unexpected.

"Without those who attended every event early, to catch my Atlantic races, I'd probably given up on my dreams by now.

"Those Champ Car fans have kept me going on some days. When I see them shed a tear over a mishap I've had, that touches me deeply. I must stay in this for them. This is not just my dream any longer. It's bigger than that now."
